Application No. 10/699,529

Continuation of Substance of Interview including description of the general nature of what was discussed: Applicant's Representative agreed to file a terminal disclaimer over U.S. Patent 7,150,182 in order to obviate an obviousness-type double patenting rejection of claims 20, 23-24 and 26 over the claims in this patent. The Examiner indicated that with an appropriately filed terminal disclaimer over U.S. Patent 7,150,182, the application would be in condition for allowance.
